

I strongly recommend the FCC reject NAB's petition 04-160. Satellite radio offers a refreshing alternative to terrestrial radio that has been WAY TOO LONG in coming. I elect to pay additional money for this service, not only the monthly fee but also for the equipment. I do not believe I should be penalized for my taste/preference in radio by not being able to get a little bit of local information.

REJECT petition 04-160!

REJECT petition 04-160!
